# testimonials

Profound experience that connected former strangers within days to a level of understanding and acceptance that is usually found only in years long friendships. Sharing thoughts and experiences about health, love, troubles, awareness on such an honest level has been most enriching to me – Johannes Then

Christina Lelupo, coach and author  
"Amazing" The week in Aegina was very inspiring and lot's of deep growth. I loved the strong connection among the various people participating the retreat. It almost felt like a family!

Diane Williams, founder of source of synergy foundation  
"glowing from inside out"

The Aegina retreat was one of the most personally, professional, emotionally and spiritually nourishing gatherings I have ever attended. I literally felt like I was glowing from the inside out and others noticed the change. And it was a lot of fun. I would highly recommend going if you have the opportunity. It will change the way you see the world and each other." "

Have to send deep gratitude to you wants more, my heart is so full of trust and joy of merging with the unknown in simply doing and engaging. Each one of you has played a big role in that, by talk, touch, sound, dance, look into the eyes or pure observing how life is celebrating itself through you.  
Paul Auls

I am deeply grateful for the authenticity, love, belonging, respect, compassion, empathy and freedom that this sacred space we all co created has allowed us to share. You brought love deep in my heart and you gave me the gift of sharing your divinity. This experience has been deeply heart nourishing, soul aligning and so much more words cannot express. I love you wonderful souls  
Natasha Athanasiadou

What immediately struck me was the deep eye contact with each person.. it felt to me as if we were all reconnecting after a long time apart. All the people on the retreat were so familiar to me. I had always had difficulty to completely trust people and keep my heart open, however all the walls came down and my heart was bursting with love not only for the others but myself . We were all so different, different backgrounds, different gifts, however we were there as one and deeply connected. The love, trust and empathy for each other was one of the most beautiful things I have ever experienced in my life and it felt in some way like I had come home... Emerged in so much love and trust gave space for a freedom to express and be who we really are creatively while co creating ... every person was beautifully unique and being exactly who they are, trusting and without fear... Something magical happened on this retreat. We all chose to be there together to remember the part of our very essence we had forgotten . And as we all remembered through the 7 day journey, we each individually reconnected with our most inner precious self which is pure love, light and creativity. For this I am deeply grateful.  
Christine Henry
